I love all the people. They are so helpful and friendly. Also they really care and truly listen and hear me and help come up with ideas to help me in whatever issues I may be having. Very patient and understanding. I get anxiety from dental visits and they all make me feel more relaxed. I'm very happy every visit. Even when something comes up unexpected or out of their control and times or dates have to be changed they do everything in their power to make it easier on me for the change. Things happen, but they really show they care that I'm happy and satisfied when changes have to be made, and in my entire experience with them.

After a 40 min. Wait to even get in, The dentist is not very friendly, he was very short with me, the hygienist(whom I never seen there before)was very rough, never rinsed my mouth out, she cut my gums, which they are still sore today. This is not normal usually iam pain free after a cleaning.. After this experience I am considering going to a different location to have a different hygienist and dentist and will take my family with me. I sure wouldn't want my kids to have an experience like that! The only positive pleasant person I have interacted with at my recent visit is Penny at the desk! She is always smiling and pleasant she is a keeper!

Review for SZMANDA DENTAL

Admittedly due to my own neglect, I've had to have a lot of work done on my teeth. Over the years, due to a number of different circumstances, the work was done by a number of different dentists. Because of that experince, I want to put in a word for Dr's Paul Zsmanda and Keith Simons. Dr. Paul has rescued me from couple of dicy situations now, and I find him to be an accurate judge of a situation. His experience particularly, and personality as well, have helped guide both my wife and myself through some tough choices. I find him to be personable, trustworthy, accurate, efficient, and sure. Dr Keith I find to be one of the best young DDS's I have ever run into. He is carefull, and imo a craftsman. He seems to be trying to accomplish the best that is possible to be done with everything he's done for me. He may not be so fast, but imo really good. I'd like to put in a word for the staff. The the receptionists, the tooth cleaners, the chair side assistants. Everyone I've

run into so far has been personable in their attitude, seem to know what they're doing, and seem to be the type of people who are pro active in their work, not the type who wait until something needs to be done before getting at it. In other words, the type of people I'd like to have working for me.
